## FIRST WILL BROKEN IN BRECKENRIDGE.

Heirs Of Joe Jarrett Sue To  
Have Their Father's Prop-  
erty Devided Among  
Them And Case  
Decided In  
Their Favor.

## WILL WAS MADE TO BASHAM.

A case of unusual interest was that of the heirs of Joe Jarrett, who sued to break the will of their father. The property amounting to several thousand dollars had been willed to Will Basham. The four children, one living in North Carolina, another in Texas, one in Meade county and Mrs. Till Kelley, of Sample, brought suit through their attorney, H. DeH. Moorman, to have the provisions of the will set aside and to have the property divided among them. The case was a closely contested one, the defendant being represented by Mercer & Mercer. The suit was decided in favor of the heirs. This is the first instance in Breckenridge county of a will being broken. This fact, together with the facts of the case as shown by the testimony make the case of extraordinary interest in local legal circles.

## SHOP NOTES.

A new boiler house was completed at the shops Saturday. Fred Furrow is the head boiler maker and the work in his department is on the constant increase.

Over \$3000 worth of scrap iron has been cleared off the shop grounds during the last six months.

A new tool system has been installed recently and for every tool taken from the tool room, a check is given which enables the men to always quickly find the tool wanted.

Ira Behen has just completed a blue print for Mr. Randall's motor car which will be rebuilt and improved soon.

Chas. Jackson, one of the oldest machinists and youngest men at the shops, spends two days at the Irvington round house every week.

A park is being made on the south-east side of the shop ground along the main track and will make the entrance to the shops very attractive.

Henry May, who has been on the road nearly a quarter of a century, has an interesting set of tools in a lock box. Nearly all of them are presents to him and he is quite proud of his collection. He always carries them with him on his runs. Mr. May is one of the best engineers on the road.

## A LITTLE CREAM FROM OUR EXCHANGES.

Long-tongue Family Well-Known.

Did you ever notice that "talk" doesn't hurt a man much? Perfection isn't looked for in man, and when someone tries to injure a man by ranting

about a few faults he has, the absent one, who is probably attending to his own affairs is elevated in the hearer's estimation while the informant is lowered accordingly. If a man knocks along doing fairly well, people realize that while he has some faults, he has some virtues, and they are charitable enough to overlook these faults. But it is different with a girl or woman. No matter how good and pure a woman may be, let some one start an infamous lie about her, and every one is willing to pass it along—and there is always someone to believe it. That lie can never be lived down. It may burn low, but the gossip-loving are ready with new fuel. Did you ever think how damnably mean some goody-good people are in this respect? We have a few well known characters of this sort here. They are known by everybody in town and are referred to as "Mr." or "Mrs." "Long-tongue So-and-So." The lower regions will be too good for people who will repeat scandals and mean reports about their neighbors. Look out when a person tells you something bad about another; he or she will be talking about you next.—The Jeffersonian.

## Thirty-Four Inches Of Rain In Five Minutes.

The rainstorm last night started as if trying to be a cloudburst. According to the measurements at the weather office, 34 inches fell in the first five minutes. During the next five minutes only ten inches fell. From 6:40 o'clock to 7:15 o'clock 56 inches of water fell. The streets were flooded in all the low places. The downpour lasted for only a short time, however, and there was no delay in the street cars.

Lightning struck the roof of the Colonnade apartments, 201-219 West Armour Boulevard, when the storm began about 9:40 o'clock. The lightning set fire to the roof, but the janitor and the members of the fire department put it out with a few buckets of water.—Junction City Kansas.

## Don't Give Up.

An aged woman was supposed to be on her deathbed. Her life had been one of particular usefulness in many directions—she had worked hard, age had come upon her, and she felt her service was past, and that there was nothing more for her to do, so she began to regulate her affairs and prepare for the end. As she lay on what she thought was to be her deathbed, her son came into the room. The feeble woman raised her eyes and looked upon him as he murmured, "My dear boy, my time has come." "Why do you

think so, mother?" he inquired. "Because there is nothing more for me to do," she wearily exclaimed. "Oh, yes, there is mother, something more for you to do, some one wants your help. An aged Jew was here yesterday, begging for your assistance. He is in want; can you not help him?" On hearing this the apparently dying woman exclaimed, "I shall help him, I shall help him, send for him immediately." When the old man came, she arose from her bed to minister to his wants. She now felt that her usefulness was not past; she would do more, so the vigor of life returned to her limbs and she lived eight years longer to help all who came to her door for material assistance or helpful advice.—The Christian Herald.

## Why Do You Worry.

"Why do I worry? Because I cannot help it. You would worry if you were in my place." How many times has this little conversation been repeated, one friend chiding another for the puffed-up brow and frowning look, the mood of depression and the anxious, wearied, care-worn slump of mind and body together, incidental to a habit of worry. True, it is easy to say to one who is overborne by the burdens she is bearing, that worry will make her load no lighter. She knows this, yet while she concedes that worry is doing no good, she goes on as if she were climbing a hill and slipping back at every step or groping through a thick fog, unable to free herself from the smothering clutch of this fiend. Three-fourths of the women patients in a certain insane asylum were said to have reached their morbid estate and the loss of mental balance through the influence of worry. Worry is really waste. It wastes nervous tissue, is the enemy of happiness, and a prolific cause and aggravation of ill health.—The Christian Herald.
